SWISS MADE

GIGA X3c/X3 from JURA*

A high-performance move into the top class

- 32 speciality coffees can be selected via the 4.3" touchscreen colour display
- Precision ceramic disc grinder with Automatic Grinder Adjustment (A.G.A.) for consistently even grinding
- Speed function: Hot water bypass for perfect speciality coffees in record time plus added user convenience
- Perfect caffè latte thanks to coffee and milk flowing into the cup at the same time

*The GIGA X models are available in two versions: a flexible mobile version and one with a permanent water connection. The 'c' in the model name indicates a permanent water connection.

The benefits at a glance

Speed function for speciality coffees in record time
A bypass automatically adds the desired amount of hot water during the extraction process. The freshly brewed coffee is blended with the hot water under optimum conditions. The result is a delicious lungo which is wonderfully aromatic.

A.G.A.
The high-performance ceramic disc grinder guarantees reliable grinding results for many years which are sure to be precise, consistent and even.
A top innovation provides that extra special something: A.G.A. – electronically controlled Automatic Grinder Adjustment.
